Jernej Čop, IT Service,
Ministry of Labour, Family, Social Affairs and Equal
Opportunities of the Republic of Slovenia

Past state

Social work centre information system (SWC IS) is operating in 62 social work centres where citizens exercise their rights.

SWCIS is currently comprised (and still is) of 18 modules supporting decision making process for 26 different rights (special childcare allowance, child benefit, maintenance, parental leave and parental benefits, financial social assistance, scholarships, subsidies..) by recording and processing data, deciding on rights and executing payments of social and other transfers several times a month based on relevant legislation (14 different acts).

Desired state Objectives

The following information is needed:

- personal status,
- income,
- property,
- statuses.

The implementation of the act requires information systems capable of ensuring and exchanging data in real time on the basis of standardised legal and information infrastructure at institutions, provided for by the act as the data sources.

Data administration authorities of 46 data sources (Article 51 of ERPFA)

1. Ministry of interior (MI);
2. Ministry of Defence (MD);

- Data catalogue defining exact range of availability, legal basis and frequency of data gathering for each source;
- Agreement on the exchange of data (Service level agreements - SLA);
- Tenders for the information system operators (Tenders);
- Organisational and logistical projects (new employment, facilities, equipment, ICT equipment,...);
- Education and training of users at SWC;
- Users support (help desk);
- Promotion.

Projects at the Ministry of (Public Administration) Interior

e-Social Security Project (e-SSP)

Reusable IT components

- Central tool for electronic data gathering (Tray = databroker);
- IO-module for synchronous data retrieval;
- Asynchronous module for asynchronous data retrieval;
- Security Scheme with Single Sign On (SSO) functionality for managing, checking and assigning user rights.

Reusable data interfaces in all connected institutions

Aim to lower the development and operating costs of our IT systems, and to improve manageability

Projects at the MoLFSA

- Development of the e-Social Work Centre module (e-SWC);
- Portal MoLFSA;
- Implementation of Document management support system;
- Data catalogue B51 (title 'B51' according to the Article 51);
